Scandinavian Star Fabric Ornament November 2026

We will make these fabric stars as an activity at our final 2026 meeting, December 5. Please bring to the meeting the following materials if you wish to learn the process and take home a nice ornament.

Fabric, prepared according to the following directions . 4 pieces, each 4 inches x 16 inches in holiday colors, Fabric can be all the same color or two different colors. (Or all different colors, your choice-but try to use a crisp fabric with a tight weave)

Pair of fabric scissors

An awl or pair tweezers (optional)

Needle and colored thread or ribbon to make a hanger for your ornament (optional)

Prepare the fabric as follows:

Use starch or a fabric stiffener to stiffen each 4x16 rectangle. (if you have it) . Press well.

Fold one rectangle of fabric in half LENGTHWISE so there is a crease down the middle. Fold each half of the fabric to meet the crease in the middle so the final piece is 1 inch x 16inches. Press. Repeat with all 4 pieces so each piece is 1 inch x16 inches.

Bring the 4 strips to the meeting where we will demonstrate and assist you with the process of completing the star.
